## Front-end Developer

---

Aspiring Front-end Developer with a solid background in HTML, CSS, JavaScript and as well proficiency in React. I initially acquired foundational knowledge through formal study, subsequently advancing my expertise through independent self-study. My strengths lie in effective communication, creative problem-solving and a passion to learn. Eager to embark on my journey in the industry, I am dedicated to expanding my knowledge of frameworks and technologies to better myself as a developer.

## Skills

---

Languages: HTML5 | CSS3 | Sass | JavaScript | Python

Frameworks/Libraries: ReactJS | tailwindcss | Three.js

Technologies: NPM | Git | Github | pip

## Projects

---

**Animu** | [Live Site](#) | [Github](#)

An anime and manga database web page.

- Provides users with ratings, genres and relevant information on the search.
- Uses the Jikan Api to parse data from MyAnimeList.
- Structured with ReactJS.
- Styled using tailwindcss.

**Lyfestyle** | [Live Site](#) | [Github](#)

An online clothing web page.

- Urban and contemporary designed store interface.
- Features cart with sizing, different types of catalogue and checkout page.
- Shop logic made from ground up with the help of ReactJS hooks.
- Uses animations from tailwindcss Animated plugin and designed using tailwindcss.
